Satisfaction Overview

Online Booking Analysis

Summary & Recommendations

Summary

Overall Satisfaction Rating *Question 5*

- More than half at 57% note neutral feedback or dissatisfaction, indicating a need for improvement.

Demographics *Question 1*

- At 82%, majority of passengers are loyal customers of Kingston Air, indicating a strong base. Older passengers (ages 31-60) seem to exhibit stronger loyalty, possibly due to their long-term patronage.
- Business class (48%) and Economy (45%) drive seat sales for the airline.
- The main purpose of travel are business trips across all ages, except for those aged 20 and below.
- The customer base is balanced among genders, with the split between Females (49%) and Males (51%) being almost even.
- The distribution for seating options observes a similar pattern across most age groups. Among older age groups, the 61-70 range appears to prefer Economy seats over Business class.

Key Performance Indicators (KPIs) *Question 2,3,4,6, 7*

- **Top KPIs:** Inflight service and baggage handling.
- **Bottom KPIs:** Gate location, Ease of Online Booking, Inflight Wifi Service
  - Ease of online booking posts an overall 2.88 average rating. Passengers aged 41-50 appear to have the highest ease of online booking among other age groups. On the other hand, the 21-30 and 31-40 age groups are among those noting difficulty with online booking.

Recommendations

High Priority:

1. Revamp Online Booking System (2.88 ave. rating)

- Conduct user experience tests to identify pain points.
- Streamline the process or steps, and improve the interface.
- Consider including age-specific features, patterning it to other applications that are intuitive to them.
- Consider offering guides or customer support during steps where consumers note difficulty.

2. Enhance and ensure working Inflight Wifi System (2.81 ave. rating)

- Consider partnering with telecommunication companies that could improve Wifi services.
- Upgrade technology or infrastructure to improve speed and reliability.
- Look into possibilities of tiered Wifi services, and highlight limitations.

Medium Priority

1. Address disloyal customers

- Explore age-specific loyalty programs, to incentivize travel and better experience with the airline.
- Implement targeted strategies addressing relevant travel purposes per 21-30 and 31-40 age group.

2. Improve mid-rated KPIs

- Explore cost-effective ways to upgrade the aircraft comfort and services of passengers.
- Consider doing focus group discussions to gather deeper insights.
